**5
Ingredients***

Customizable Flavor Tabs

Standard Features

Dispenses beverages 30% faster, reducing wear and tear on major dispenser components.

- **Vacuum Steam Removal System (VSRS)** – Ensures the powdered mix remains dry to eliminate clogging, caking and bridging.
- **Removable Moisture & Powder Collection Tray** – Catches excess moisture and cappuccino powder before it reaches the vacuum motor. Keeps the dispenser in top working condition.
- **Self Cleaning Feature** – Rinse system cleans the entire whipper chamber with hot water at the end of each cycle. All parts requiring regular cleaning can be removed by hand.
- **SMARTSENSE Product Sensors** – Monitors milk powder level, alerts operator when product hopper needs to be refilled, shuts off dispense mechanism on empty milk hopper, and re-engages when hopper is refilled.

* Highly concentrated flavors are required for use in these dispensers. Consult your local beverage purveyor for product details or contact Cecilware for more information.

Service

Front Access Saves Time

Exclusively Designed by Cecilware, Allows Access to Major Components Through the Front of the Dispenser.

- Save money on service calls.
- Maximizes operating time.

Features a User Friendly Walk Thru Menu - Large, Two Line LCD Display for Viewing System Status, Modifying Parameters and Easy Setup!

"IT" Functions

- "IT" Sets Water Temperature.
- "IT" Sets Low Water Temperature Lockout – Prevents dispensing of product when water temperature is too low. Guarantees a more consistent, higher quality beverage.
- "IT" Sets Program Flow for Post Mix Machine to Adjust Taste Profile.
- "IT" Sets Beverage Serving Size with a Resolution of One-Tenth of an Ounce.
- "IT" Sets the Dispense Mode for Free Flow or Portion Control.
- "IT" Remembers the Number of Cups Dispensed for Inventory Control.
- "IT" Remembers Total Ounces Dispensed for Inventory Control.
- **SMARTSENSE with Product Lockout** – On the 10 lbs. milk hopper (standard unit) or the 5 lbs. milk and 5 lbs. chocolate ("HC" unit). Monitors product hopper level. Shuts off / disengages all dispense mechanisms when product hopper runs low. A flashing light and low volume audible alarm will sound. Re-engages when the hopper is refilled. SMARTSENSE ensures quality dispensed products.

Sanitation

- "IT" Sets Rinse Time – Alerts the operator when the chambers need to be flushed out and sanitized.
- "IT" Sets Rinse-Warning Lockout – Dispensing will halt if the whipping chambers are not flushed out and sanitized periodically.
